

RFID Proximity Door Keypad Access

Model:XTK-6

X-TOP

Features:

- **Housing material:PVC**
- **Operating voltage: DC 12V**
- **Operating frequency:125Khz**
- **Identification way: Smart Card**
- **Storage capacity:1000 users**

Specifications

Operating voltage	12V DC \pm 10%
User capacity	1000
Card reading distance	2-10cm
Active current	<60mA
Idle current	25 \pm 5mA
Lock output load	Max 3A
Alarm output load	Max 20A
Operating temperature	-45°C to 60°C
Operating humidity	10%-90% RH
Adjustable door relay time	0 -99 seconds
Adjustable alarm time	0- 3 minutes
Wiegand interface	Wiegand 26bit
Wiring connections	Electric lock, exit button, external alarm, external reader

Installation
